Workshop M1

Quelques composants disponibles pour votre solution hardware.
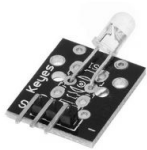

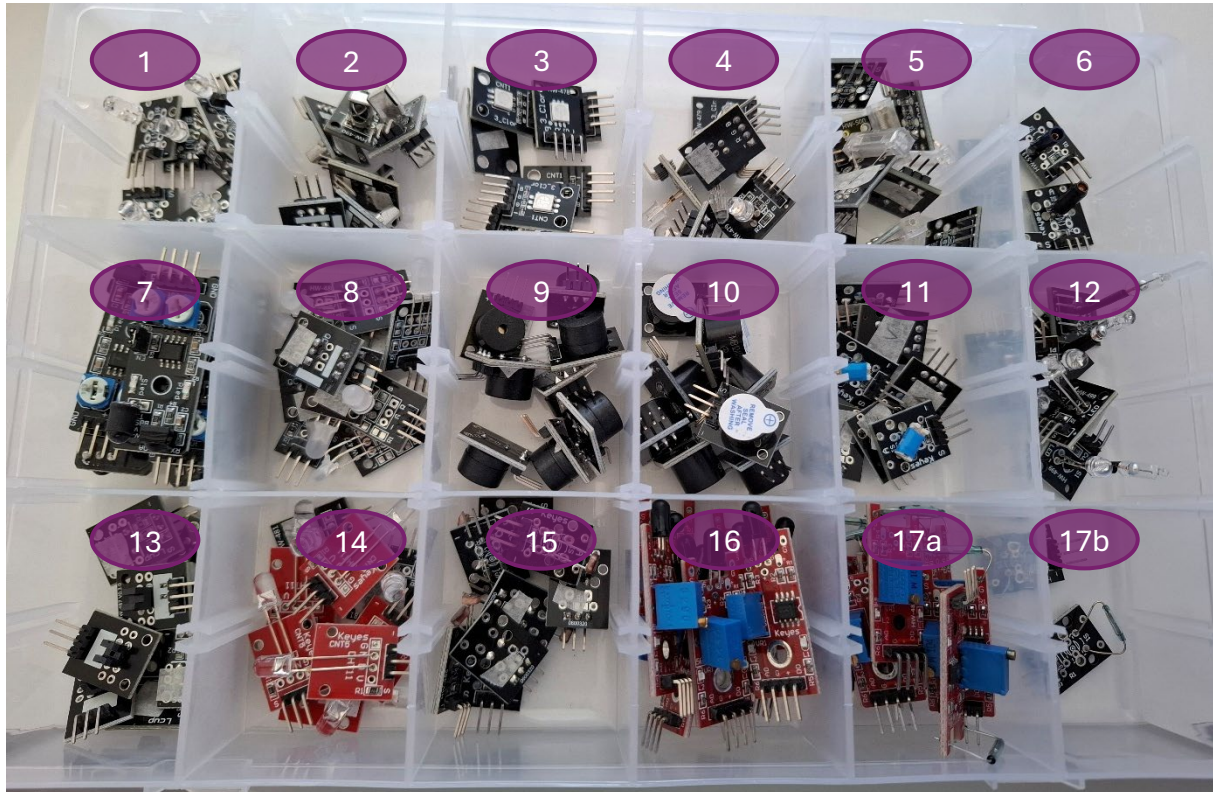

1 - KY-005 Infrared Transmitter Module (https://arduinomodules.info/ky-005-infrared-transmitter-sensor-module/)

2 - KY-022 Infrared Receiver Module (https://arduinomodules.info/ky-022-infrared-receiver-module/)

3 - KY-009 RGB Full Color LED SMD Module (https://arduinomodules.info/ky-009-rgb-full-color-led-smd-module/)

4 - KY-016 RGB Full color LED module (https://arduinomodules.info/ky-016-rgb-full-color-led-module/)

5 - KY-031 Knock Sensor Module (https://arduinomodules.info/ky-031-knock-sensor-module/)

6 - KY-002 Vibration Switch Module (https://arduinomodules.info/ky-002-vibration-switch-module/)

7 - KY-032 Infrared Obstacle Avoidance Sensor Module (https://arduinomodules.info/ky-032-infrared-obstacle-avoidance-sensor-module/)

8 - KY-029 Dual Color LED Module (https://arduinomodules.info/ky-029-dual-color-led-module/)
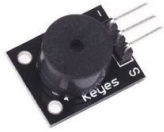

9 - KY-006 Passive Buzzer Module (multi-tone / PWM)
(https://arduinomodules.info/ky-006-passive-buzzer-module/)

10 - KY-012 Active Buzzer Module (one-tone / VCC)
(https://arduinomodules.info/ky-012-active-buzzer-module/)

11 - KY-020 Tilt Switch Module (https://arduinomodules.info/ky-020-tilt-switch-module/)

12 - KY-027 Magic Light Cup Module (https://arduinomodules.info/ky-027-magic-light-cup-module/)
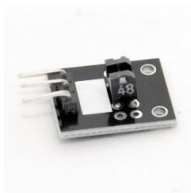

13 - KY-010 Photo Interrupter Module (https://arduinomodules.info/ky-010-photo-interrupter-module/)

14 - KY-034 Automatic Flashing Color LED
(https://arduinomodules.info/ky-034-automatic-flashing-color-led/)

15 - KY-018 Photoresistor Module (https://arduinomodules.info/ky-018-photoresistor-module/)

16 - KY-026 Flame Sensor Module (https://arduinomodules.info/ky-026-flame-sensor-module/)

17a/b - KY-025 Reed Switch Module (https://arduinomodules.info/ky-025-reed-switch-module/)
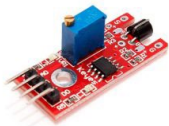

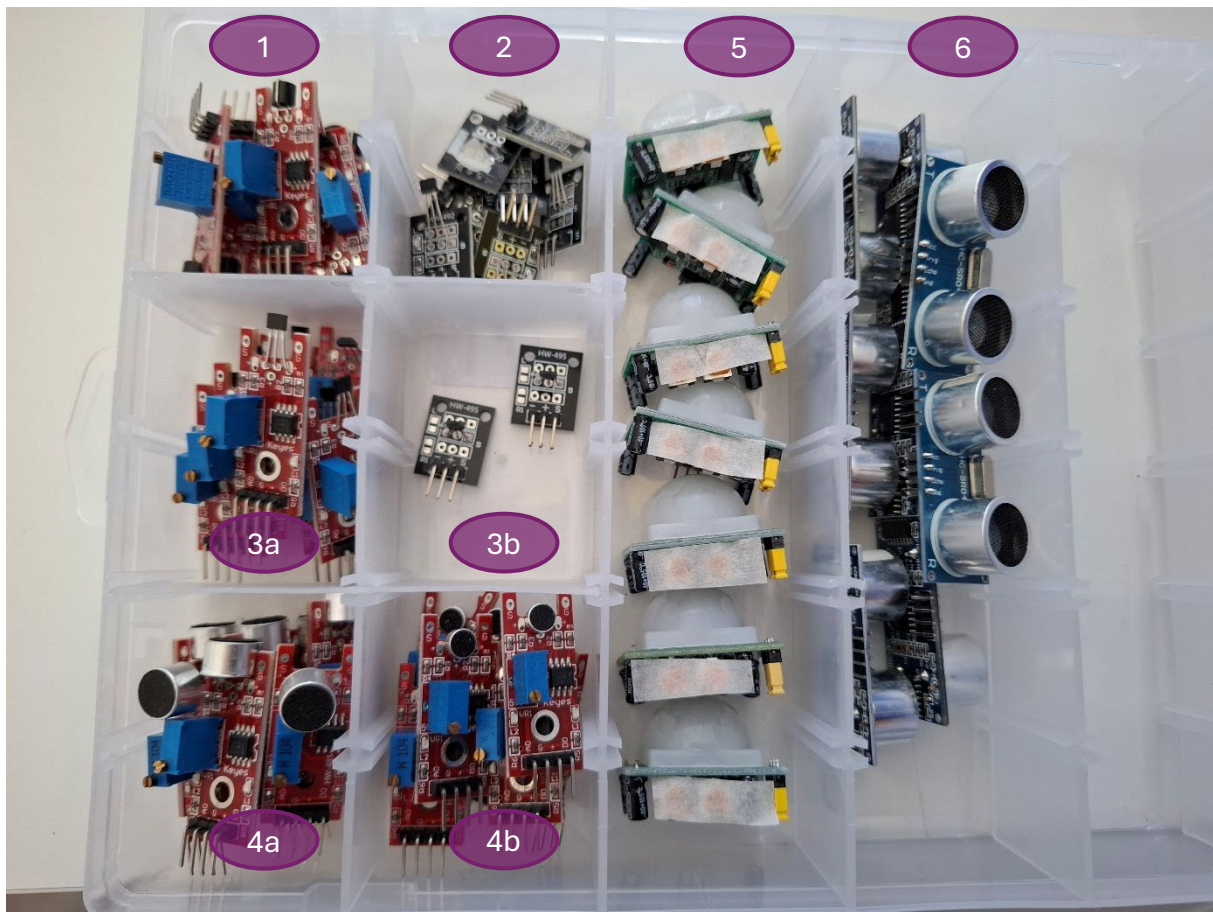

1 - KY-036 Metal Touch Sensor Module (https://arduinomodules.info/ky-036-metal-touch-sensor-module/)

2 - KY-035 Analog Hall Magnetic Sensor Module (https://arduinomodules.info/ky-035-analog-hall-magnetic-sensor-module/)

3a/b - KY-024 Linear Magnetic Hall module (https://arduinomodules.info/ky-024-linear-magnetic-hall-module/)

4a/b - KY-037 High Sensitivity Sound Detection Module
(https://arduinomodules.info/ky-037-high-sensitivity-sound-detection-module/)

5 - PIR Infrared Detector (https://www.gotronic.fr/art-detecteur-infrarouge-pir-101020060-21995.htm)

6 - HC-SR04 Ultrasonic Module (https://www.gotronic.fr/art-module-de-detection-us-hc-sr04-20912.htm?srsltid=AfmBOoq5KKMh15PZgZzHZ8xGHQrErg0SL0XDRxl0SiIaQlHdH6qJitoC)
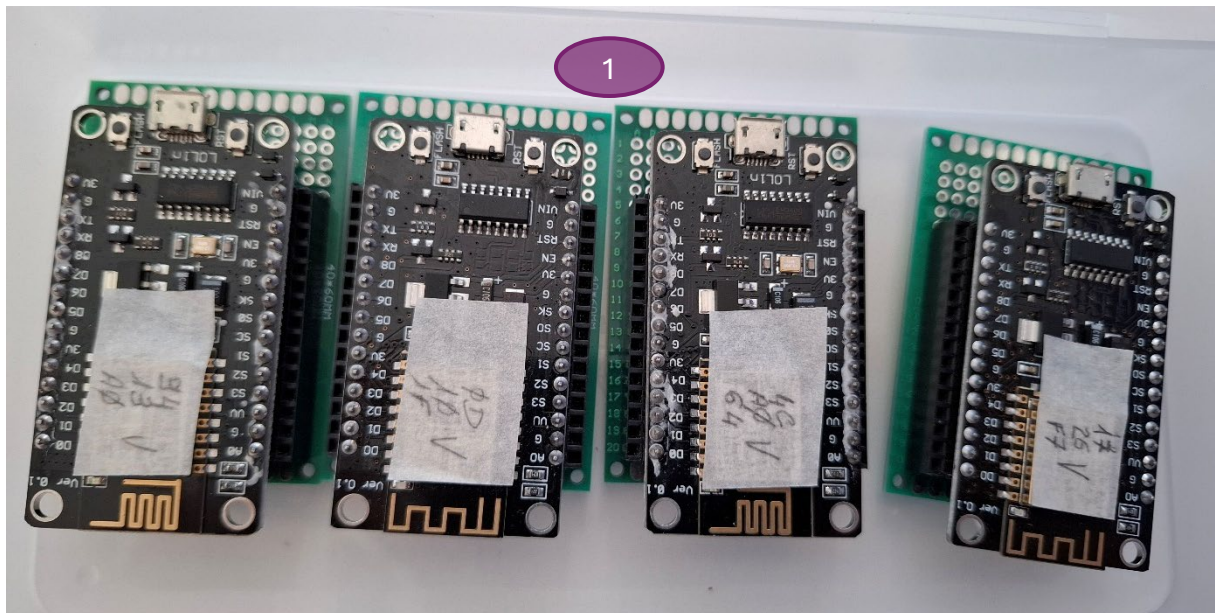

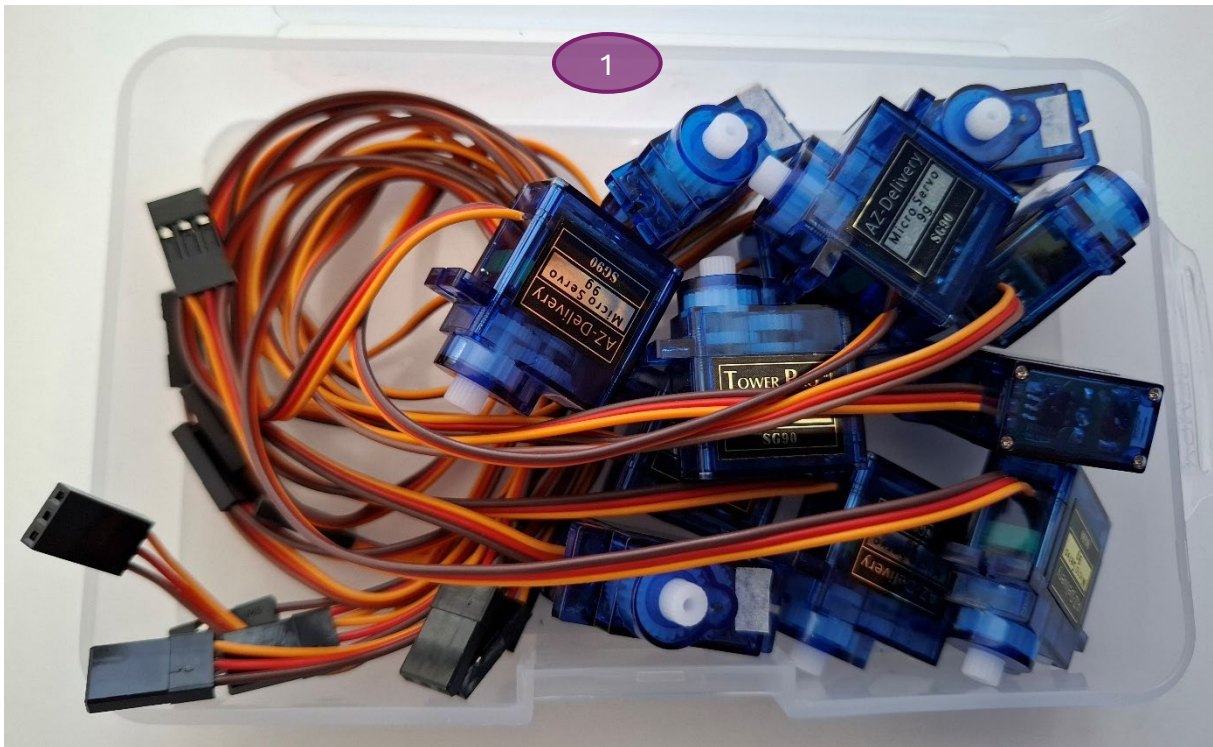

1 - Module ESP8266 + Platine de Prototypage
(https://lastminuteengineers.com/esp8266-pinout-reference/)

1 - SG90 Micro Servo Motor 9G (https://www.az-delivery.de/fr/products/az-delivery-micro-servo-sg90)
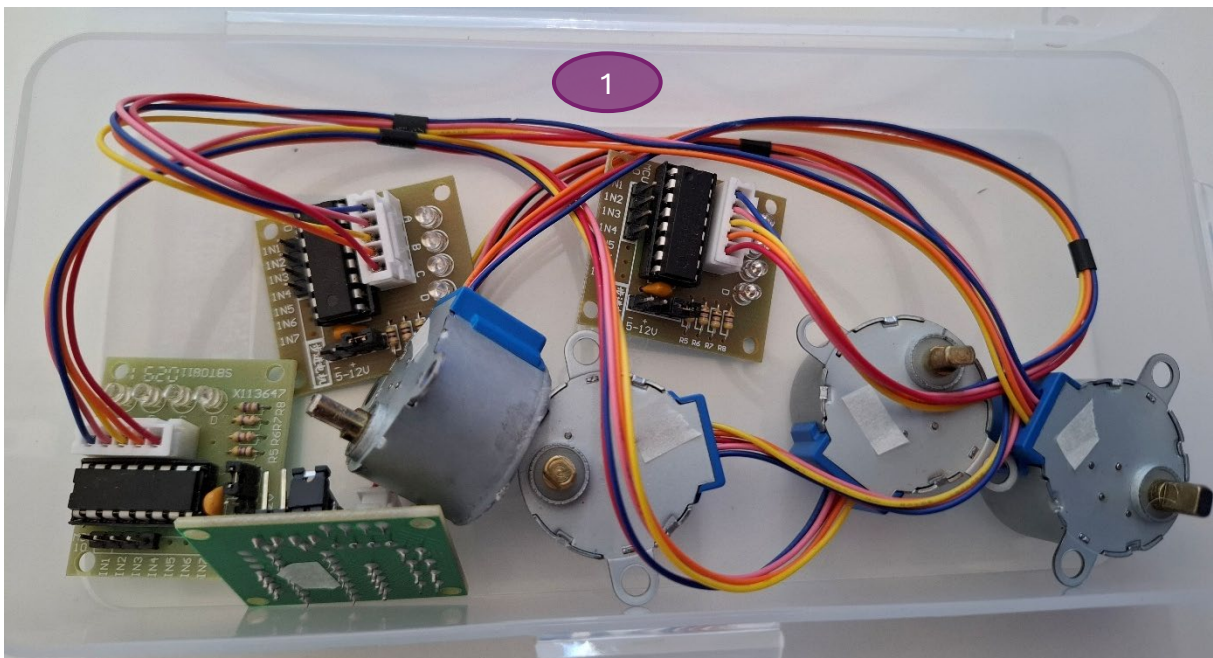

1 - Moteur pas-à-pas + Driver UNL2003A (https://www.gotronic.fr/art-moteur-pas-a-pas-driver-stp01-23568.htm)

Et bien plus encore, venez visiter le myDiL 😊
